---

- VVIET, Mysore, Karnataka** December-26-2017  
Bachelor of Engineering : Electronics and communications

## Skills

---

- Programming languages: Python, JavaScript
- Web Technologies: HTML5, CSS3, Bootstrap
- Frameworks: Django
- Database: SQLite, MySQL
- Tools: Git, GitHub, and VS Code

## Projects

---

- Personal Portfolio Website | HTML, CSS, JavaScript**
  - Created a responsive personal portfolio showcasing projects and skills.
  - Implemented interactive UI elements and smooth navigation
  - Deployed the website using GitHub Pages
  - Project Website : [https://eshwarnaikg.github.io/eshwar\\_sample\\_portfolio/](https://eshwarnaikg.github.io/eshwar_sample_portfolio/)
- Weather Forecast Web App | HTML, CSS, JavaScript, Open Weather API**
  - Built a responsive weather application to display real-time temperature, humidity, wind speed, and weather conditions.
  - Integrated a public weather API to fetch live data using JavaScript fetch() and async/await.
  - Implemented user-friendly UI with dynamic icons and error handling for invalid city searches.
  - Project Website : <https://eshwarnaikg.github.io/My-Updated-WeatherApp/>
- Online Job Portal System | Python, Django, HTML, CSS, JavaScript, SQLite/MySQL**
  - Developed a full-stack online job portal enabling job seekers to search and apply for jobs and recruiters to post vacancies.
  - Implemented user authentication and role-based access for Admin, Employer, and Job Seeker using Django authentication.
  - Built job listing, job application, and resume upload features with secure form validation.
  - Designed responsive front-end pages using HTML, CSS, and Django templates.

- GitHub Code Link : <https://github.com/EshwarNaikG/Job-Portal-System.git>
- **Hospital Management System | Python, Django, HTML, CSS, JavaScript, SQLite/MySQL**
  - Developed a web-based Hospital Management System to manage patients, doctors and appointments operations.
  - Implemented role-based authentication for Admin.
  - Built appointment scheduling and patient record management modules using Django ORM.
  - Designed responsive user interfaces using Django templates, HTML, and CSS.
  - GitHub Code Link : [https://github.com/EshwarNaikG/Hospital\\_Management\\_System.git](https://github.com/EshwarNaikG/Hospital_Management_System.git)
  - Project Website : [https://eshwaranaikg.pythonanywhere.com/admin\\_login/](https://eshwaranaikg.pythonanywhere.com/admin_login/)
- **Ecommerce Website | HTML, CSS, JavaScript**
  - Built a responsive ecommerce website with product display and cart features using JavaScript.

## **Certification**

---

- Python Full Stack Web Developer - IWAY Training
